

Powered Studio Monitors

MPower Series

Mpower 6
Mpower 8

SERIOUS. ELEGANT. UNDERSTATED.

Building on the legacy of the iQuake series the new MPower series continues the quest to be the best powered monitor speaker on the market today.

With a focus honed on audio quality the MPower features wideband ribbon tweeters, stiff aramid glass fiber woofers - powered by a high-end bi-amplification architecture giving each drive unit a dedicated amplifier. Adhering to a stringent high performance, no-nonsense philosophy the MPower features clean lines, smooth rounded corners and seamless magnetically attachable grilles.

The dark graphite finish is elegant without being flashy. No gimmicky displays, blinking lights or novelty features. Just serious performance that leaves you free to produce or enjoy music.

PROVEN TRACK RECORD

For over 27 years Earthquake has been designing and manufacturing top quality audio equipment.

The MPower is no exception to this ledger of excellence. We are certain that you will enjoy using them for many years.
