

Cinénova7

Seven Channel Amplifier

Model:
Cinénova7

Cinénova7

Face plate (W x H)	19" x 6 7/8" (483 X 175mm)
Chassis (W x D x H)	16 1/4" x 17" x 6 7/8" (413 x 432 x 175 mm)

OBJECTIVE

Cinénova7 is part of the legendary Cinénova series, known for its raw power but also transparency. Earthquake designed this amplifier because of the high demand it received from customers.

With a monaural design, the Cinénova7 has a clear sound quality with low distortion. At 8-ohms, the Cinénova7 outputs 175 WRMS measured with all channels driven. This is the perfect amount of power for most home theaters and can accommodate a diverse amount of audio set-ups.

This rack-mountable amp will blend in perfectly with your existing system. And like all Cinénovas, the Cinénova7 is not just a purchase, it is an investment. Cinénova7 will provide you with true amplification no matter how your system changes and upgrades. With the increasingly popular surround sound audio format available with most movies, nobody needs to miss out on the true theater experience.
