

The Sound That Will Move You

CABLES Power/Speaker

HIGH FLEXIBILITY 100% COPPER
NO CCA (copper coated aluminum)

Made of 100% oxygen-free pure copper, the Earthquake power and speaker cables feature the highest number of wire strands for maximum current flow (zero losses) and high flexibility; thus making "system connection" easy.

Unlike other manufacturers, Earthquake does not use CCA (copper coated aluminum) known for its high resistance.

PC0 RED/BLACK: 100% copper, 0-gauge power (red) and ground (black) cables.

PC4 RED/BLACK: 100% copper, 4-gauge power (red) and ground (black) cables.

SC14 CLEAR: 100% copper, 14-gauge speaker cable with clear finish.
