

# BT4 Wireless Audio Receiver

## Product Release

## Stream Wirelessly

The new **BT4** BlueTech wireless music receiver allows you to stream audio from your Bluetooth® enabled cell phone, PC, Laptop, iPhone®, iPad®, Android® or other audio player devices to your stereo system.

Designed with convenience in mind, the **BT4** features fast and easy device pairing method, over 32 feet of open space wireless range and 3.5mm AUX LINE-OUT. It can remember up to 7 paired devices and will also auto-reconnects to the last paired device if it is within range.

With an impressive dynamic range of 10Hz to 20kHz, you can enjoy music in your playlist without having your device tied to the stereo system.

BT4 | **MSRP**  
**\$69/pc**
