

# MiniMe FF8V2

## Product Release

## Performance & Quality

The MiniMe system is designed to dramatically enhance your enjoyment of music and films at home by adding power and impact to low frequency sound effects without taking up your entire living space.

The MiniMe FF8V2 subwoofer utilizes an advanced digital class “D” amplifier and an 8” premium long throw driver. With a sealed design and front firing piano gloss enclosure, it can be placed in tight spaces where non-front firing subs cannot fit.

Designed in the USA, the MiniMe FF8V2 Subwoofer meets and exceeds all industry standards of performance and quality. With uncompromised “World Class” performance and superior technology, the MiniMe FF8V2 subwoofer embodies both power and elegance.

**Designed For Use In:**  
Home Theaters & 5.1 & 2-Channel Music Systems  
Town Homes/Condos/Apartments  
Cabinets and Tight Spots

## Features:

- Front firing design for multiple applications
- 320-Watt class “D” powered amplifier with automatic signal-sensing turn-on and stand-by mode for longer life, more efficiency and less power consumption (greener)
- Sub operation switch for different ranges
- High gloss multi layer piano black lacquer finish for a mirror shine
- Long throw, premium quality drivers
- Operation status LEDs
- RCA & high level inputs
