

EARTHQUAKE

SOUND

The Sound That Will Move You

You'll be hypnotized by the vibrant imaging of VTEK component systems. Expect shining clear sound and blazing performance, thanks to Earthquake's combination of innovative materials and design.

The layered electroplated carbon fiber woofer cones produce accurate, natural-sounding music, thanks to a linear drive magnet design and the excellent sound-propagating qualities of the woofers' low mass cone.

Bottom line, these are sound quality speakers designed to take the guessing game out of high-end speaker choices.

Features:

- Tri-layer woven carbon fiber cones
- Overhung rubber surround
- Cast aluminum basket
- High precision 1" silk dome tweeters
- New carbon fiber styled crossover
- Over-sized polypropylene crossover capacitors
- 12-db-per-octave slopes
- Flat or -3db tweeter connections
