

The Sound That Will Move You

# Power Blocks

MACHINE TOOLED 100% BRASS FOR  
HIGH CURRENT APPLICATIONS

Machine tooled from solid brass, the Earthquake distribution blocks are triple hard plated with 24K gold and nickel-plated; for high current applications & maximum power delivery.

Extremely versatile designs make the DB-0224 the "Block Of Choice"; with 1-gauge input, you can hook one 2-gauge, two 4-gauge, two 8-gauge output power cables to cover all your needs.

Fully insulated, corrosion resistant & long durability make the DB's the prime choice for Professional installers.

DB-1244

DB-0224: One (0-gauge) input with one (2-gauge), two (4-gauge), & two (8-gauge) outputs.

DB-1244: One 2-gauge input with four 4-gauge outputs.

DB-0224
