RK-SS8

### OBJECTIVE

The Earthquake Imäge in-ceiling surround speakers feature a unique adjustable tweeter design that allows custom installers to create enveloping sound fields and localized effects, without disrupting a home's decor.

Designed for surround use in home theater and music applications, the Imäge in-ceiling series employs a poly injection woofer cone and a single 3/4" neodymium tweeter with silk dome and enhanced high frequency.

The Imäge in-ceiling speakers out perform conventional designs by maximizing diffusion, clarity and efficiency while minimizing room interaction that blur sonic truth.

### INTENDED USE

- ✓ Contractors, Custom Installers and Retailers
- ✓ New Construction and Retrofit Jobs
- ✓ Home Theater/5.1 & 2-Channel/Music Systems
- ✓ Can Be Used in Both Boats and RV's

### SPECIAL FEATURES & HIGHLIGHTS

- High efficiency output
- Spring loaded speaker terminals
- Anit-rust grilles
- Available in 6" and 8" models
- High value low cost solution for any job
- Silk, 20mm, swiveling neodymium tweeters
- Low mass poly injection cone bodies for fast and accurate response time
- Wide rubber surround to compliment extra piston area for more musical output
- Paintable grilles and frames to match any decor
- High quality capacitors and inductors
- Easy to use Turn-N-Lock installation
