

ECS 3.0

In-Ceiling Speaker

EARTHQUAKE
EARTHQUAKE
SOUND
The Sound That Will Move You

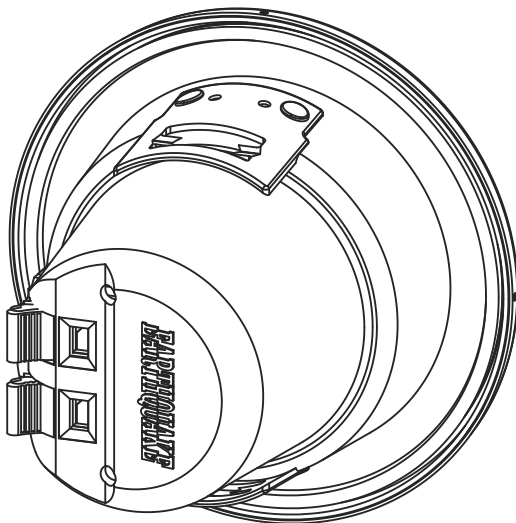

COMPATIBLE WITH DOLBY ATMOS®

The new ECS 3.0 is a 3 inch full range in-ceiling speaker designed to produce audiophile quality sound and occupy a very compact space (3.19" x 2.51"). The self-enclosed new ECS 3.0 ultra-compact speaker is an ideal choice for background music. It can effortlessly produce full range music without strain.

With a resemblance to a recessed ceiling light with paintable grille and frame, the ECS 3.0 integrates beautifully into any environment, providing ambient sound without detracting from your interior design.

Whether you want background/ambient music or practical enhancement to your surround sound, the ECS 3.0 In-Ceiling speaker is the ideal speaker for the job. The ECS 3.0 is also compatible with Dolby Atmos® which will bring your home theater experience to a whole new level.

Mounting the speaker in the ceiling is an easy process. Using the provided cutout template; cut the mounting hole, connect the speaker using the easy connect push terminals, and snap the speaker in place. The built-in mounting clip system will do the rest of the work.
