

Tremor-X

Product Release

High Performance Super Powered Subwoofers

You've been asking and we've been listening. The Tremor-X subwoofers are now made with dual coil by **popular demand**. These new Tremor-X's are built with TCT technology which allows the driver to play louder longer by keeping the voice coil running cool at all times. They also have stitched leads, reinforced dust cap construction for linear movement, and bigger, more effective magnets with added cooling devices to increase efficiency even more. The Tremor-X subwoofers have no equal and are ready to prove it.

Features:

- Heavy duty stitched leads
- Spring loaded speaker connections
- Anti-wobble cone construction
- TCT Technology (Turbine Cooled Transducer) for high efficiency
- Military grade dual 4-Ohm

	MSRP
Tremor-X12 D4	\$225
Tremor-X15 D4	\$275
