Special Features:

- +/-3dB Crossover Selector
- Dual Silk NEO Tweeters
- Low Mass Woven Glass Fiber Cone
- PistonMax Technology
- Turn-N-Lock Mechanism
- Spring Loaded Gold Plated Terminals
- NEW Edgeless Design
- Paintable Magnetic Grille

Objective:

The IQ series of in-ceiling speakers has the ability to reproduce the sound of a concert hall without having any obtrusive or eye-soring equipment.

Available in single and dual voice coil, as well as two different sizes; finding what works for you is easy.

A pair of single voice coil IQ speakers you can adjust the swivelling tweeters to tailor the sound to the "sweet spot". While with a dual voice coil you can produce left and right signals allowing you to receive great stereo performance in hallways bathrooms or any other small location.

The new edgeless, paintable grille gives a high-end visual aesthetic that allows the speaker to seamlessly blend into any decor.
