

IQ Amplifiers

IQ-600

IQ-1500

The IQ Series amplifiers are designed with the patented class "J" circuitry which allows the amplifier to produce massive amounts of power with minimal heat production.

With built-in room equalization, the IQ Series amplifiers offer a room correction technique that surpasses that of all previous attempts. Just like the XJ Series, these IQ amplifiers take time, reflections and refractions into consideration in order to correct "phase" related problem in the room.

Whether you want to have a true room correction amplifier or upgrade the power of your subwoofer, the IQ Series amplifiers will deliver an unprecedented performance to your home theater experience.

IQ FEATURES:

- XLR/RCA and high level input connections
- Room equalization IN/OUT
- Subsonic filter
- Phase shift
- Phase delay
- Custom flush mount design
- Dual gains internally mixed
- Music sending ON/OFF
- DC turn ON/OFF
- IR capability
- 110V/220V

INCLUDES:

- Transformer
- Remote Eye
- Remote

IQ Amplifier Information

IQ-600/IQ-1500

SPECIFICATIONS:

	IQ-600	IQ-1500
Number of Channels	1 / MONO Block	1 / MONO Block
Amplifier Power	8-Ohm load: 300 Watts 4-Ohm load: 365 Watts 2-Ohm load: 500 Watts	8-Ohm load: 700 Watts 4-Ohm load: 1100 Watts 2-Ohm load: 1500 Watts

DIMENSIONS:

	IQ-600	IQ-1500
Height	11-11/16"	11-11/16"
Width	8-1/2"	8-1/2"
Depth	3-7/8"	3-7/8"

INTENDED USE:

- Custom Installers & Retailers
- Home Theater
- Sound Systems
- Subwoofer Compatible
