

The Sound That Will Move You

XJ-300ST

Class "XJ" Stereo Amplifier

Height w/out feet	1-3/4" (45mm)	1-7/8" (46mm)
Width	8-1/2" (216mm)	1" (25mm)
Depth	8" (203mm)	7/8" (22mm)

Mounting Options

Intended Use:

- Contractors, Custom Installers & Retailers
- Home Theater
- Multi-Channel Sound Systems
- Marine and RV Compatible
- Subwoofer Compatible

Special Features:

- Compact Size
- Wall or Rack Mountable
- Auto Signal/Music Sensing
- Built in Room Corrections & 0-180 Phase Adjustment
- RCA and USB inputs
- Volume Control
- 50-160Hz Built in Crossover
- 110V/220V Selectable
- 12V Trigger

Objective:

The new XJ-300ST amplifier, maintains the same power and flexibility that made the XJ-300FR so popular and adds a new convenience by way of a 12V trigger allowing you to power the amp through an outside source.

With endless configuration scenarios, this amp can be used as a mono (bridged) amplifiers, 2.1 Channel amplification with industry leading power density and efficiency.

With the XJ-300ST it is possible to connect a third speaker between the main channels. This matrix mono channel (aka "tri-mode" configuration) plays the combined content of both channels and is extremely useful for powering 2 satellites.

The patented interlocking design allows you to link two XJ-300FR amplifiers side by side and mount them on the equipment rack using only 1U rack of space. The XJ-300ST can also be mounted on the wall or inside the cabinet by fastening the short mounting ears to the preassigned holes on the side of the amplifier.

Specifications:

Power Handling	8-Ohm: 2 x 110 WRMS 4-Ohm: 2 x 170 WRMS MONO BRIDGED: 8-Ohm: 170 WRMS 4-Ohm: 300 WRMS
Frequency Response	20Hz-20kHz
Total Harmonic Distortion	<0.08%
Finish	Black
MSRP	\$599
